Charging the speaker

The speaker has built-in rechargeable battery. When the battery is drained out, speaker would turn OFF automatically. Please recharge the battery every time it drains out.

Plug the Micro USB end of the included USB charging cable into the charging port. Plug the other end into a USB port on your computer or other devices made for USB charging. Red LED Light illuminates indicating that the device is being charged.

It takes 3 - 4 hours to fully charge the speaker. Once the speaker is fully charged, LED Light would turn OFF.

It is recommended to fully charge the speaker before its first use.

Turning ON/OFF the Speaker –

Before Turning ON the speaker, please ensure that it is fully charged. Press ON/OFF button to turn the device ON/OFF.

TWS function

It is possible to use two copies of this speaker,paired together,to benefit from a stereo sound.
To do this,turn on both speakers,then press the **M** button on one of them once. The two speaker will connect to each other.
You can then pair your device with the stereo unit by following the procedure below. Ensure that both speakers are spaced less than 10 meters.

Connect using Bluetooth Technology

• Turn on ON/OFF button. You would hear an indication tone, indicating that you are now in Bluetooth Pairing Mode.
• Activate the Bluetooth function on your source device (Mobile Phone or Tablet). Please refer to manufacturer's instructions for instructions on enabling Bluetooth on your device.

VT-6133 **V-TAC**® Bluetooth

• Search for available Bluetooth devices and you would find "SKU-7725" – Pair it with this device.
• If required, enter the password "0000" to pair with the device.
• Once paired successfully, you will hear another indication tone.
• You can now stream wireless music on your speaker through your source device.

(Note: Battery life & charging time may vary based on usage, types of devices connected & wireless distance.)

Talking using the Bluetooth Speaker

Please ensure that your cell phone is paired with the Bluetooth Speaker to use the below functions.

Function	Operation	Button
Answer Incoming Call	Incoming Call	Press the Phone button once to answer an incoming call.
End Call	Incoming Call	After your phone conversation, short press the Phone button
Volume Increase	During a call	Long press on the + button will increase the volume
Volume Decrease	During a call	Long press on the - button will decrease the volume
Redial last number	Standby mode and connected to a device	Short press the Phone button twice

Listening to Music Wirelessly

Please ensure that your device (iPhone, Tablet or Other Smart Phone) is paired with the Bluetooth Speaker to stream music wirelessly. Once it is paired, play music from your device.

VT-6133 **V-TAC**® Bluetooth

Function	Operation	Button
Increase Volume	Playing music	Press and hold the + button to increase the volume
Decrease Volume	Playing music	Press and hold the - button to decrease the volume
Pause	Playing music	Short press the Play/Pause button will pause the music
Play	Pausing	Short press the Play/Pause button will resume the music
Previous track	Playing music	Short press the Skip Backward button will return you to the previous track
Next track	Playing music	Short press the Skip Forward button will take you to the next track

(Note: The above functions only can be used in Bluetooth mode only. An indication tone will alert you when the volume is adjusted to maximum level. In Aux mode, besides the volume increase/decrease, you will need to control through your source device.)

Stream music from Micro SD (TF) Card

• Turn ON the speaker.
